

INSTALLATION

Product Manual

SKU: HYZ-7161-018

Configuration: Conference table with panel supports

Before You Begin

Read these notes before assembling your HYZ-7161-018 conference table.

CHECK YOUR MODEL

This manual is for HYZ-7161-018. Match the supplied table panels and fittings to the drawings before assembly. Keep the original red component identifiers.

FOLLOW THE SOURCE ORDER

The source contains six illustrated panels. This manual labels them Step 1 through Step 6, reading left to right and then top to bottom. These step labels are separate from the red part numbers.

BUILD THE END SUPPORTS

Follow the foot-fitting details in Step 1. Step 2 shows the end-support assembly with an X2 mark. Match components 1, 2, 4, 5 and 8 to their positions in the drawing.

JOIN THE SUPPORT FRAME

Use the central-support drawing in Step 3, then arrange the four panels marked 6 as shown in Step 4. Refer to the bracket and screw details in Step 5.

POSITION THE TABLETOP

Step 6 shows the tabletop assembly above the support frame to illustrate its placement. Preserve the arrangement of the panels marked 7 and the central cable openings when matching the drawing.

KEEP THIS MANUAL

Retain this manual and your order details. If a part or fixing does not match the drawing, contact the seller before continuing.
